

# Simplify Your Sourcing

Procurement can no longer afford to rely on email chains and spreadsheets. Our solution empowers procurement teams to launch tenders rapidly while maintaining control and ensuring transparency throughout the process.

Whether you manage a few suppliers or multiple line items, our platform provides structure, minimizes manual effort, and enhances governance.

With the Onventis Sourcing Engine, **sourcing is faster, fairer, and future-proof.**

**Launch events faster** with reusable templates and automated supplier communications.

**Ensure transparency** with structured Q&A forums and centralized document requests.

**Evaluate bids** confidently with side-by-side comparisons and scoring models.

**Enforce compliance** through built-in certificate checks, role-based rights, and more.

**Expand coverage** by making it practical to run guided events for tail spend.

## Scalability with:

Advanced questionnaires with automatic scoring and dependent questions.

Large-scale sourcing for many suppliers and line items.

Collaborative evaluations via the offer comparison matrix to involve your team.

Ready to start your sourcing experience? Contact us today for a demo and see how Onventis can elevate your business efficiency.
